- White Ribbon Campaign**
- WRI wants to end all violence against women, by encouraging men never to commit, excuse or stay silent about men's violence against women.
 - WRI analysis recognises that the key barriers to this are gender conditioning of individuals and secondly, societal and institutional perceptions of men and women and the roles, behaviours, expectations for both men and women.
 - To bring about change in society MDN has identified 7 levers of change, which it uses to influence people at the individual, community, cultural, organisational and legal levels. These levers of change are the focus areas for the work of MDN.
- WRI's Vision: "Make Ireland a place where all women can live in safety, free from violence and abuse".
- Purpose/Mission of WRI: Encouraging men to take ownership of the issue, by accepting their role in the deconstruction of harmful gender conditioning.
