'Twenty Years On' Where to from here? Extending our Vision for Men & Men's Leadership!

The Men's Development Network is proudly celebrating our twentieth year since we were first established in 1997, creating an environment for men to come together to celebrate our lives and to identify and address issues of concern for us, each other as men, our families, communities and the broader society. This we have done successfully through the support of men like you who have been at the forefront of creating our vision "Better Lives for Men Better Lives for All"

We want to take the opportunity at this year's Summer School to thank you for all that you have contributed and to celebrate the positive changes that have evolved from your ongoing participation support and activism. We also want to take the opportunity to extend our vision for ourselves, for those we love, for our leadership and for you again to be at the centre of creating such a vision.

We look forward to working with you and sharing in the richness of your experience and diversity as men extending our learning and understanding of men's lives as we engage in this process.

This is an alcohol free event.
